United Presbyterians Meet in Indianapolis.

Prayer Meeting Held in the Capitol Grounds—Report of the Treasurer—Gospel Meeting.

INDIANAPOLIS, Ind., Aug. 19.—An early morning prayer meeting in the capitol grounds opened the days proceedings of the Young People's Christian Union of the United Presbyterian church. The weather was clear and cool and the attendance large. The subject, "Consecration," was presented by the Rev. J. D. Rankin, D. D., of Denver.

At 9:30 a. m., the first session of the day was begun at Tomlinson hall. After devotional exercises the Rev. John A. Duff, general secretary, read his annual report.

Next came the report of the junior work and award of the junior banner to the presbytery representing the largest increase in membership of junior societies. This banner has been held for the past year by the Allegheny presbytery. Monongahela won the banner.

Annual report of Treasurer W. J. Stewart and report of committee on nominations.

The treasurer's report was as follows: Omaha convention fund, receipts, $1,558.00; disbursements, $1,098.64; balance on hand from Omaha convention, $458.36; Indianapolis convention fund, receipts, $1,477.80; disbursements, $918.48; balance on hand August 18, 1897, $559.04; mission fund contributions received from 13 societies and 164 individuals and forwarded to the boards of the church, $3,717.07.

The treasurer reported that since the above figures were compiled $300 has been received making total receipts about $4,000.

The report of the Rev. W. I. Wishart, junior secretary, showed a gain of thirty-nine organizations during the year. The report says: "The membership has increased from 8,902 to 10,440, a gain of 1,538. The aggregate contributions of the boys and girls in our junior unions and endeavor societies this year amount to $4,529, as against $3,782 last year. There have also been reported to the junior society this year 152 junior missionary societies with an aggregate membership of 4,901 and an aggregate contribution of $3,287."

The following officers were elected: Chairman, C. F. Wishart; secretary, Miss Ella Collins; press secretary, Orville Wilson; treasurer, W. J. Stewart.

After the installation of the new officers a short song service was had, after which came the reception of R. S. Moffatt, of Chester, S. C., chairman of the executive committee and synodical delegate associate of the Reformed Presbyterian church.

The morning session was concluded by the Rev. W. T. Meloy, D. D., of Chicago, who spoke on "The Ministry of Sympathy."

During the noon hour a gospel meeting for business men was held in the Y. M. C. A. hall, at which the Rev. T. C. McKelvey, evangelist of the synod of New York, spoke.

A NEW RAILROAD

Will be Built in the Klondike Country.

It Will be One Hundred and Thirty Miles Long and Will Cost $3,000,000—A Steamer for a Hotel.

PORT TOWNSEND, Wash., Aug. 19.—Residents of Juneau, Alaska, are very much in earnest over the proposed Yukon Mining, Trading and Transportation company to construct a railroad from Toka inlet to Lake Teslin, a distance of 130 miles. The company also contemplates a road up the beach from Toka to Juneau, a distance of twenty-nine miles. At the head of the railroad scheme is P. J. Packard, special agent of the company, who says his associates include President O. N. Lea and Willard Saulsbury, of Delaware, and interested with them are New York and Philadelphia capitalists. The Yukon Mining, Trading and Transportation company is capitalized at $3,000,000. During the past winter the company has applied for and received all necessary charters from the United States, British Columbia and the dominion governments.

PORTLAND, Ore., Aug. 19.—The stern wheel steamer Eugene, belonging to the Portland Alaska Trading and Transportation company, has started down the river on her long trip to Dawson City, which place she expects to reach about September 11. From Astoria, the Eugene was towed by a tug to Victoria. At the latter place she will be taken in charge by the steamer Bristol and towed to St. Michaels. The Eugene's passengers will go on the Bristol to St. Michaels and there transfer to the Eugene for Dawson. At Dawson City the Eugene will do duty as a hotel this winter.

Tested the Test.

CHARLESTON, S. C., Aug. 19.—Four of the twelve-inch mortars in the new mortar battery on Sullivan's island were fired today with service charges to test the accuracy and stability of their mounting. The guns were fired one at a time and finally in a volley. The test was successful.

United Brethren Conference.

PORTLAND, Ind., Aug. 19.—The annual conference of the Auglaize district of the United Brethren church will be held this year at Decatur, beginning August 26. Bishop Hott, a native of Virginia, who has been associated with the church for twenty-four years, and has just been elected bishop for the third time, will take part.

TRAIN WRECKERS

At Work on the Cleveland, Lorain and Wheeling.

Pile Rubbish Upon the Tracks and Stone the Crews of the Coal-carrying Trains.

WHEELING, W. Va., Aug. 19.—Unknown parties concealed in the brush about the Cleveland, Lorain and Wheeling track at Barton last night attacked a passing northbound coal train. As the train passed the spot a volley of stones was sent at the trainmen, wherever one was in view. Fireman Little was struck by one of the flying missiles and quite badly cut. Later another train at the same place collided with a pile of empty oil barrels which had been put on the track and fastened with a heavy rail. Fortunately Engineer Leggett was looking out for trouble at this point and was running the train very slowly, thus preventing an accident. Every effort is being made to find the guilty ones.

FIRST OF ITS KIND.

Railway Official Arrested for Violating Sunday Laws.

Grand Jury Indicts Him on Three Counts and the Case Will be Made a Test of the Law.

ATLANTA, Ga., Aug. 19.—W. S. Brand, superintendent of the Georgia railroad, has been indicted by the grand jury of DeKalb county for violation of the state law in running freight trains on Sunday. The offenses are alleged to have been committed on February 7, 14 and 21, this year. The attorneys for the county are now in correspondence with the officials of the road with a view to agreeing on a date for trying the case.

BEAT THEM ALL.

Zimmerman Goes Abroad to Exhibit His Marksmanship.

NEW YORK, Aug. 19.—Upon the arrival of Gus Zimmermann from his trip abroad, where he has again distinguished himself as the champion rifle shot, he will be given a big reception by his friends and admirers. A private dispatch states that he defeated all opponents in a shoot at Edigen, Germany, where he was born, and won the title of "schuetzenguen."

COULDN'T FIND HIM.

Dr. John R. Judkins Disappears From Cuba.

WASHINGTON, Aug. 19.—A report from Consul General Lee states that he can find no trace of J. R. Judkins. Citizens of Ohio had asked the state department to see if anything of him could be learned, stating that he was a physician of Blanchester, that state, and went to Cuba in 1892. Consul General Lee will continue to prosecute his enquiries.

NEGRO HANGED.

Harvey Doherty Punished in Memphis for His Crime.

MEMPHIS, Tenn., Aug. 19.—Harvey Doherty, colored, was hanged in the jail yard this morning. Doherty protested his innocence while on the gallows. Doherty was hanged for attempted rape on the person of a seven-year-old girl on October 8, 1896. This is the first legal hanging for this crime in Tennessee.

BROKE JAIL.

Albert Volers, a Bad Man, Gains His Freedom.

FAYETTEVILLE, W. Va., Aug. 19.—Albert Volers, one of the notorious Lewis gang of murderers, under sentence to be hanged here next Tuesday, broke jail here this morning before daylight. The sheriff and posse are after him. Jerry Brown is condemned to hang with Volers.

Reaches His Destination.

CONSTANTINOPLE, Aug. 19.—Dr. James B. Angell, the new United States minister to Turkey, arrived here today.

LOCAL LINES.

Mrs. John Deubelbiss is quite ill.

Mrs. C. E. Cooke, of Paulding, Ohio, is in the city visiting her son, Fred B. Cooke, the ball player.

Miss Frances Carmichael, who has been the guest of her sister, Mrs. F. A. Reichelderfer, returned to her home in Maysville today.

Miss Dora Diamond, of East Wayne street, will leave tomorrow morning for Lafayette to be the guest of Mr. and Mrs. Julius Pottlitzer.

There will be an ice cream social this evening at the Grace Lutheran church, corner of Gay and Prairie streets. Music by the Fort Wayne Arion band.

Detective Coling today locked up two boys, aged about eleven years. The lads gave the names of Barney Grabowski and Henry Whans, but refused to tell where their home was. They are thought to be runaways.

DECIDEDLY MIXED

Is the Strike Situation in West Virginia.

Rumors From Pittsburg Have a Depressing Effect on the Miners—Marchers are Stopped.

WHEELING, Va., Aug. 19.—The strike situation is decidedly mixed in West Virginia today. The news that the Pittsburg operators have decided to resume at all hazards, and the report that Dolan and representatives of the operators have asked Ratchford to come to Pittsburg with a view of settling the strike, had a depressing influence upon West Virginia miners. The hope has been held out to them that when a settlement came they would be consulted, and that a scale of wages that would help them would be enforced. But if Pittsburg is to make the settlement all hope of this is lost.

The camp at Montana is still a lively place, the presence of the strikers' wives adding much to the gaiety, and no thought of sorrow for the men on trial at Clarksburg seems to be entertained. In the New River region five mines were closed yesterday, and on the Kanawha valley but one mine went to work.

On the Norfolk and Western there is no reduction of output and no organizers are in sight. All but two of the peddling mines in the Wheeling district are closed, including eastern Ohio, and but for the use of natural gas every industry in the middle Ohio valley would be closed.

MARCHERS STOPPED.

PITTSBURG, Aug. 19.—The miners at Plum Creek marched at 5 o'clock this morning, according to their announcement, but they were stopped by the deputy sheriffs and turned back to their camps where the sheriff has concluded they can remain as long as they are orderly. The deputies took at high hand in the affairs this morning and none of the strikers were allowed to be on the road, even though they were in pairs and not a hundred yards apart. The strikers did not stop to argue the the matter, but obeyed the officers of the law without a murmur.

FARMERS ARE MARCHING.

PITTSBURG, Aug. 19.—It is reported that about 200 farmers from Plum Creek and Wilkins township will make a sympathetic demonstration today. They will form at New Texas and march down the Saltsburg pike to the strikers' camps at Plum Creek and Turtle Creek. A number of wagons, containing food and provisions, will accompany them on the march and speeches will be made by the leading farmers. The arrangements for this march were completed last week and everything is in readiness for the farmers to go ahead. District President Patrick Dolan left for Columbus, Ohio, last night to attend a secret conference of labor leaders and coal operators to be held there today.

WANT BETTER WAGES.

REYNOLDSVILLE, Pa., Aug. 19.—At a meeting of about 1,000 miners and laborers of Big Soldier, Sprague, Hamilton and Prale mines, near here, it was decided to demand an advance in wages from 25 to 33 cents per ton for machine mining and for 30 to 40 cents per ton for pick mining, other wages in proportion and satisfaction in regard to check weighman's pay. A committee was appointed to call on General Manager Robinson and present the demands. Meanwhile arrangements will be made to call meetings at all the other mines of the Jefferson & Clearfield Coal and Iron company with a view of having the men demand a similar advance, and all possible influence will be used to extend the strike into the Clearfield county collieries. There are now 1,500 strikers here. Organizer Harris is confident the men will win. A six foot fence is being built around the Jefferson & Clearfield Coal and Iron company's Big Soldier works and it is reported that new men will be started to work.

BOMB THROWERS.

Turkey Searching Among the Armenians for Guilty Ones.

CONSTANTINOPLE, Aug. 19.—Three arrests have been made as a result of the bomb explosions here yesterday. All the prisoners are Armenians. The author of the explosion which took place in the offices of the grand vizier, is a native of Kaisarieh. His hand was injured by the explosion. The police are actively searching the Armenian quarters for accomplices of the bomb throwers and the streets are thoroughly patrolled by troops and police.

SHOEMAKERS STRIKE.

They Tie Up the Only Union Shop in the City.

DETROIT, Mich., Aug. 19.—Pingree & Smith's shoe factory, the only union shop in this city, was tied up at noon today by a strike of the bottomers. About 700 hands are affected. The firm is willing to arbitrate the differences, but the men claim they have always got the worst of arbitration and demand an increase in the price of certain grades of shoes.

A Big Tunnel.

SEATTLE, Wash., Aug. 19.—Active work on the tunnel of the Great Northern railroad in the Cascade mountains will commence Friday. The tunnel will be two and one-half miles long, sixteen feet wide and twenty-three feet high. It will cost $2,000,000 and require two years in building. It will reduce the ascent by 1,000 feet.

ARMOR PLATE

Can be Made for Less Than $300 Per Ton.

J. H. Carpenter, an Expert, Explains to the Government Officials How It Can be Done.

READING, Pa., Aug. 19.—J. H. Carpenter, founder of the Carpenter Steel works of this city, of which he was formerly general manager, has prepared a statement showing that steel armor plate can be furnished to the government at a trifling figure compared with what is now being paid. Mr. Carpenter is a well known steel expert and inventor and was formerly in the United States navy. The Carpenter Steel works, from which Mr. Carpenter has retired, have up to this time furnished the United States government with nearly $1,000,000 worth of projectiles, and a $500,000 order is now being filled. His price is so far below the government limit, $300 a ton, that the Bethlehem and Carnegie companies say they cannot meet it with their Harveyized nickel plates, and occasions the armor plate board much surprise. Mr. Carpenter claims that by pneumatic processes steel of the best physical properties and chemical conditions can be uniformly made and much waste avoided. A plant can be built for less than half the money, and the steel can be made and cast in a quarter of the time now required. Experts in steel and government inspectors of manufacture seem to be satisfied of the value of the processes and his ability to perform his promises. His estimates of cost have been compared with the cost sheets forwarded to congress by the examining board, and found to agree, except where less work is done.

Originally Mr. Carpenter's plans were to organize and equip the works himself, but now he concludes to give the option to the government. If it is declined, he says he will organize his own company and sell the armor plate at $150 per ton, allowing $50 for profit and contingencies. The board has written him that it will be ready to consider his proposition in a few days.

A NEW FIRM.

Malle & Stites, Barber Shop and Cigar Stand.

William Malle has purchased a half interest in the H. C. Stites barber shop at the corner of Wayne and Calhoun streets, and Mr. Stites and Mr. Malle purchased the cigar stand known as the "Corner Cigar Store," occupying part of the same room. Mr. Stites will, as heretofore, give personal attention to the barber shop while Mr. Malle will look after the interest of the cigar business, having at all times a full stock of the finest brands of cigars and tobaccos in the market on hand. Both gentlemen are well known young business men with host of friends and THE SENTINEL predicts for them a successful business career.

LOCAL LINES.

P. C. Morgenthaler has gone to Attica, Ind.

Mrs. Anna Walters and daughter, Jennie, left this morning for Orrville, Ohio.

Dell and James Adams, of Wabash, were in Fort Wayne on business yesterday.

Mrs. W. P. Kindt and Miss Carrie Stuver are at Cincinnati, the guests of Henry Diamond.

Mrs. Jacob Bohle and daughter will go to Defiance, Ohio, tomorrow to spend two weeks with friends.

A. B. Bates, of Crawfordsville, will be the guest of his father, W. D. Jones, of the New Aveline, Saturday and Sunday.

John F. Habbe, state manager of the Massachusetts Mutual Life Insurance company, is the guest of M. J. Blitz, the district manager.

M. C. Tierney and Miss Jane Shoemaker, of 23 Baker street, are the guests of Mr. and Mrs. Fred Kratsch at Glendale cottage, Rome City.

Carroll DeWitt, special agent of the Glen's Falls Fire Insurance company, with headquarters at Indianapolis, is calling upon local agents.

Mrs. Frank P. Jones, of Chicago, is the guest of her husband's parents, Mr. and Mrs. G. W. Jones, of 116 Jackson street. A party to Robison park will be given tomorrow in her honor.

New Haven News: "Mrs. T. J. O'Donnell and Mrs. Cleary, of Fort Wayne, are the guests of Mrs. M. Moriarity, sr., of the north side.—Mrs. Magers, of Fort Wayne, who has been spending a few days with J. E. Bixby and wife, returned home last evening. Miss Mame Bixby accompanied her for a few days' visit."

Kate Hall, of Brazil, Ind., has filed suit in the Clay circuit court against the supreme tribe of Ben Hur for $2,500 indemnity on the death of her husband, Mr. St. Clair Hall. Hall was a member of the Rockville lodge, while the payment of the indemnity is refused on the ground that Hall was not a full member.

KIDNAPPED A BOY.

Detectives and Reporters Locate the Little Fellow.

He Had Been Kidnapped by His Uncle and a Friend—The Latter Gives Up the Child.

ALBANY, N. Y., Aug. 19.—Five-year-old John Conway, who has been at the mercy of kidnappers since Monday morning, was returned to his parents shortly after 9 o'clock today, through the efforts of private detectives and reporters in the employ of the Argus.

The child was abducted by his uncle, Joseph Hardy, and H. B. Blake. Hardy has been placed under arrest, but Blake escaped from his captors and is being pursued by a squad of police. Blake was found and taken to the Argus office with Hardy at 4 a. m. He was accused of the kidnapping and at first denied all knowledge of it. When threats failed, he was offered a ransom and finally it was made so large that he confessed the kidnapping and piloted a party of Argus men some five miles out in the country where he left them and in a short time returned with the boy in his arms. He was given a stuffed pocketbook for his ransom and an effort was made to arrest him. When he saw that he had been trapped he pulled a revolver, fired four shots and broke away from his captors, who did not pursue him but immediately drove to the city with the boy.

FRAME A CURRENCY BILL.

Committee of Ten Named to Act for the Indianapolis Conference.

SARATOGA SPRINGS, N. Y., Aug. 19.—The subcommittee appointed from the executive committee of fifteen selected by the recent sound money conference at Indianapolis held an all day session at Yaddo, the country seat of Spencer Trask, of New York. The subcommittee consists of Chairman Hugh H. Hanna, of Indianapolis; J. W. Fries, of Salem, N. Y.; George Foster Peabody, of New York, and A. E. Willson, of Louisville.

The currency situation was thoroughly discussed in all its aspects. The recommendation of President McKinley that congress should appoint a committee to consider the whole currency question and recommend suitable legislation having failed to pass the senate, his alternative suggestion that such a committee should be appointed by this conference was acted upon.

The committee as appointed consists of eleven members, representatives of all interests in relation to the currency. They are all strong and prominent men, but it was decided to withhold their names until their acceptance has been secured.

The committee appointed John J. Mitchell, of Chicago, as treasurer and selected a finance committee consisting of Mr. Mitchell, J. F. Hanson, of Georgia and Alexander E. Orr, of New York. The conference then adjourned to September 16, the place of meeting being left for further consideration. It is expected that full reports will be made and important action taken at that meeting.

TELEPHONING.

Proposed Competition With the Bell Company by Independent Plants.

LAPORTE, Ind., Aug. 19.—It is said on good authority that long distance telephone connections, independent of the Bell company, will be established, beginning November 1, between towns having independent plants. This is spoken of as the result of the proposed co-operation of inter-state telephone companies, and South Bend, Michigan City, Laporte, Fort Wayne and, in fact, all points in northern Indiana enjoying independent service are to be connected with Detroit, Kalamazoo, Battle Creek and other Michigan cities whose independent plants are in operation. A line is to be built from Michigan City to Chicago, and thence to Niles, Mich., via South Bend, where Michigan connections will be made. The building of this line will also open communication with Ohio cities. Connections will be made with local exchanges without cost to the companies, and rates are to be 50 per cent. less than Central Union long distance rates.

FORTY HORSE TEAM.

It Will be Driven in the Barnum & Bailey Parade.

Barnum & Bailey will give a practical lesson in difficult driving through the streets of Fort Wayne next Monday.

One of the notable features of the street parade to be made in the interests of the greatest show on earth is a 40-horse team, driven four abreast to the big band wagon. The streets of this city, like those of every other city in the country, present many difficulties for the driver of this team to overcome. Narrow roadways, trolley cars and street car tracks do not make his task any easier and it is difficult enough at the best.

The man who drives this team has been in the employ of this show for 16 years as a driver, and no crack whip of a coaching club can handle reins with him. He succeeded in driving his 40-horse team through 25 miles of New York streets on the opening day of the season, and escaped all accident from elevated roads, Broadway cable cars and crowded corners, in addition to supporting 80 pounds of reins through the entire long and rough journey.

The grounds on which the big show will exhibit are located at the north end of Calhoun street and there two exhibitions will be given on circus day, one at 2 o'clock in the afternoon and the other at 8 o'clock at night. The free street parade will leave these grounds at 9 o'clock in the morning and the route through which it will pass is as follows: Calhoun street to Columbia street, to Barr street, to Jefferson street, to Calhoun street, to the grounds.

LAU WAS LOUD

In Trying to Prove His Innocence to the Mayor.

He Was Drunk Just the same. Hired Man's Weakness Gets Him in Jail—Other Police News.

Theodore Lau, a one-armed veteran of the late war, was locked up by Officer Elbert last night for drunkenness. He was found by the officer on the stone steps at Library hall, where he was wrapt in deep slumber, with a partially filled whiskey flask at his side. Lau was sent to jail for eleven days, notwithstanding that he protested his innocence.

Frank Smith, arrested by Officer Greer for drunkenness, put up a watch and $2 and was let go.

Jacob Shupp, a hired man employed at the Bosch residence on East Berry street, became lost to the world last night on account of too much booze, and he was locked up. He has occupied his present position for eighteen years. He went to jail for eleven days.

Three train jumpers were let go.

CROOKED DEAL.

Reuben Langley Arrested in This City Today.

Taken to Columbia City to Answer to the Charge of Obtaining Money Under False Pretenses.

Shortly before noon today Officer Sharp arrested one Reuben Langley at the Aufrecht block, and the prisoner was locked up awaiting the arrival of Whitley county officials. Langley and John Baker, of Whitley county, are charged with swindling, having sold to David Geiger a piece of timber land that did not belong to them. Langley is a barber by trade and has resided in this city a long time. His associate has not been arrested.

WILL HELP JUDGE.

The Wounded Prisoner Will Have Many Friends.

Colored Citizens Rally to His Side and a Strong Defense Will be Put Up When the Case is Tried.

Wesley Judge, the colored prisoner who was shot in the leg by Detective Woodson Fox, of the Pennsylvania force, is not without friends. A purse is now being taken up among the colored citizens to pay a good attorney to defend Judge when he is arraigned in the circuit court on the charge of assault and battery with intent to kill.

It will be remembered that Judge was intercepted by Detective Fox while walking through the east yards. He resisted the officer, several shots were fired and one of them from the detective's revolver entered the colored man's leg. The defense will be fought on the line that Judge did not know that Fox was a detective and that the officer did not display his star. Fox claims he did show his star.

WILL FAVOR CINCINNATI.

Col. Walker Says Indiana Will Vote for the Ohio City.

The Indiana delegates to the national convention of the G. A. R., to be held at Buffalo this year, are all pledged to Cincinnati as the location of the gathering of 1898.

Ivan N. Walker says that the Indiana delegation, which has thirty-five votes, favors Cincinnati because of its location as concerns the Indiana veterans and that for this reason they will doubtless be cast for the Queen city.

San Francisco, Denver and Richmond, Va., want the veterans in 1898 and have all started booms. There has never been an encampment held west of St. Paul, but it is probable that Denver will stand the better chance of the two western cities.

Past Commander-in-Chief Walker says that owing to the sentiment against the G. A. R. in Richmond the convention will hardly go there for several more years and predicts that about 1902 will find the Union veterans encamped in the old capital of the confederacy.

There are four candidates for the position of commander-in-chief. The Indiana delegation has received bids for the support of each. The men mentioned for the position are: I. F. Mack of Sandusky, Ohio; Gen. J. S. Gobin of Pennsylvania; P. C. Lincoln of New Hampshire and Gen. Sexton of Chicago.

A DUEL WITH KNIVES.

Frits Lane Fights to the Death With Jesse Bradley.

EVANSVILLE, Ind., Aug. 19.—Fritz Lane, of Weckliffe, Ind., is dead from a wound received in a knife duel fought with Jesse Bradley, last Monday night. Lane died within five hours. Bradley cannot live. Deputy Sheriff Barnett has gone to arrest Bradley, but has no idea of bringing him in. All are desperate characters and Weckliffe is in a most uncivilized part of the county.

IS MISSING.

William Bremer Strangely Absent From His Home.

Left His Business Partner, Mr. Pape, Without an Explanation—Accused of Skipping Out.

A search is about to be instituted for William F. Bremer, a member of the wall paper firm of Pape, Bremer & Co., 110 Barr street. Mr. Bremer has been strangely missing since last Monday morning. William Pape, jr., was seen at the store today and he says that Bremer has no doubt skipped out, inasmuch as he made no explanation of his departure, and left his business affairs in bad shape. The young man said further that Mr. Bremer's family say that they do not know of his whereabouts. Notwithstanding the suspicious disappearance there is a possibility that some harm might have befallen Mr. Bremer, and an explanation is anxiously awaited by his friends.

OFFICIAL EYES

Will View the Pape Wells Tomorrow Morning.

Members of the Common Council and the Municipal Officers to Witness the Supply Test.

Tomorrow morning at 10 o'clock the members of the council and city officers will go to Bloomingdale and witness the water supply test which is in progress at the Pape tract. A test at the rock well sunk in this land was held recently, but owing to insufficient pumping facilities it was not a success. Thomas Baxter, chief engineer at the waterworks pumping station, began a second test under more favorable circumstances yesterday morning at 10 o'clock. Mr. Baxter has connected a gravel well and a rock well from which water is being pumped at the rate of a million and a half gallons a day. This is a splendid showing and if it keeps up at that rate to the end of the test, next Saturday morning, all doubt of supply will be removed. This test will most likely settle the question of purchasing of Charles Pape the twelve acres of land that he offers to the city.

LAKESIDE SEWER.

Cost of Its Construction Will be Settled Tonight.

Bids to be Received and Contract Will Probably be Let—Remonstrances on Certain Improvements.

The most important matter to come before the board of works this evening will be the receiving of bids for the Lakeside sewer. Several contractors will submit figures, on which account the bids will be low, in comparison with some other sewers of the same dimensions. A rough estimate places the cost of the sewer at $7,000.

The board will hear remonstrances on the assessment rolls of the widening of Fifth street and the widening of the alley between Grant and Wabash avenues, from Winch street to the Wabash railroad.

MINING INTERESTS

Take R. J. Fisher to the Pacific Coast.

Will Incorporate Gold and Silver Mining Companies Which are Controlled by Him.

R. J. Fisher will leave over the Wabash at noon tomorrow for Pasadena, Cal., to join his wife and daughter, who have been sojourning there for some months. While west Mr. Fisher will complete the work of incorporating the Vekol Mine and Milling company, which has valuable gold and silver mining property in Arizona. The headquarters of the corporation will be located in Pasadena. Mr. Fisher will also incorporate a company to assume ownership and operation of valuable mines located in California. He expects to return here in three or four weeks.

WILL TALK AGRICULTURE.

First Township Farmers' Institute—Splendid Program Arranged.

The farmers of the county are now arranging their township institutes, and the first of them will be held in Aboite township, Aug. 25, at Craig's grove. This is the program:

A. O. U. W.

Lodge No. 19 Will Hold a Grand Picnic at Robison Park.

The second annual excursion of A. O. U. W., lodge No. 19, will be given to Robison park on next Saturday. The following athletic program has been prepared:

OF OLD AGE

Bartley Fitzpatrick Dies at the St. Joe Hospital.

John G. Schubert Passes Away—Mother of Mrs. E. G. Anderson Called Home—Other Deaths.

Mrs. Margaret Wilson, mother of Mrs. E. G. Anderson, of this city, died at Nashville, Tenn., last Sunday. The lady has visited here and many will remember her. Deceased was seventy-eight years old. Mrs. Anderson arrived at Nashville too late to see her mother alive.

This morning at St. Joseph hospital, occurred the death of Bartley Fitzpatrick, an old citizen. His age was sixty-nine years. The funeral will take place Saturday at 8:30 a. m., from the house of John Fitzpatrick, 46 Bass street, who is a brother and the only surviving relative in this city. Service will be held at 9 o'clock at St. Patrick's church.

Elsie, the two-year-old daughter of Christian Walke, of 45 Hillsdale avenue, died this morning of cholera infantum.

Vinnie, the four-weeks-old daughter of Thomas Benton, of Jones street, died this morning of convulsions. The funeral will be held tomorrow afternoon at 2 o'clock, from the house.

Arthur, the two-year-old son of Mr. and Mrs. Fred Rummer, of 206 John street, died yesterday of brain fever. The funeral will be held tomorrow at 4 p. m. from the house.

John G. Schubert, aged eighty-three years, died at the residence of his son, Gustave Schubert, of 85 East Main street, this morning, of old age. The funeral will take place Saturday at 1:30 from the house and 2 o'clock from St. Paul's Lutheran church.

THE COURTS.

Constable Johnson Arrests a Country Couple.

The Spy Run Avenue Viewers Make Their Report—Items of General Interest.

Last evening August Buscha, of Jefferson township, filed an affidavit in Justice Bullerman's court charging Henry Winters and Ella Miller with fornication. Constable Johnson went to Jefferson township this morning and returned at noon with the man and woman. They deny the charges and friends assert that there are some peculiar circumstances connected with the case which may be brought out in the trial.

NOTES.

Victor Hobert and George Kain, the New Haven men, were arraigned before Justice France yesterday on a charge of stealing chickens, preferred by Henry Sprandel. The case was continued, owing to the absence of an important witness, and the men were placed under bond for their appearance.

Benjamin Toby was arrested for provoking John Thorn, a motorman. He entered a plea of guilty and Justice Bullerman fined him $1 and costs.

Mrs. Heckbore, of Sheldon, came to the city Tuesday and filed charges of assault and battery against her husband. The facts were kept very quiet here, but when Deputy Sheriff Stout drove down yesterday to make the arrest he found that all the neighbors knew of the affair and Heckbore had skipped out.

Chris Buhm is this afternoon being tried in 'Squire France's court on surety of peace charges preferred by Louis Brames.

In Justice Bullerman's court John H. Kane pleaded guilty to assault and battery on Samuel A. Kain and was fined and costed the usual sum.

The viewers in the matter of widening Spy Run avenue made their report to the commissioners today and the report is as stated in yesterday's SENTINEL. The commissioners will adopt the recommendation of Messrs. Glutting and Michael.

The county commissioners and directors of the Maumee Avenue Gravel Road company will probably meet Saturday and discuss the purchase of that thoroughfare.

Marriage licenses have been granted to Henry Erb and Mary Meier, Klaus Perry and Mae Thompson and Henry C. Mennewisch and Jessie Repine.

Prof. Ellis D. Walker, of Ann Arbor, Mich., has been selected by the school board as superintendent of the public schools of Bluffton to succeed Superintendent Burris, who goes to Salem, Ohio. Superintendent Walker is a graduate of Ann Arbor, class of '88 of the Michigan state normal, class of '85, and has been at the head of the high school of Kankakee, Ill., and Dubuque, Iowa. There were eighty applicants for the place.

Miss Susie M. Becker left on a visit to Decatur last night.

Ice cream sold in London streets has been found to contain 7,000,000 microbes to each cubic centimeter. It is said that more than a 1,000,000 microbes to the centimeter are unhealthy. The safe plan is always to count them before eating.

A Gibbons mob recently gave a negro culprit the privilege of choosing the manner of his death. The victim desired to kill himself eating watermelons, but his captors were unanimous in the belief that such a death would involve no punishment, and that it was not their purpose to reward, but to avenge.

The quarterly payment of pensions at the Indianapolis office began Thursday, 4th inst., with the mailing out of the checks. There are paid at the Indianapolis office 70,140 pensioners who receive $2,635,000. The Indianapolis office is the second largest in the country. All payments are made by check now and the system has proved itself to be far preferable to the old plan, by which pensioners were compelled to come to the office, sign their vouchers and receive the money.

Edmund Burke said: "In doing good we are generally cold and languid and sluggish, and, of all things, afraid of being too much in the right. But the works of malice and injustice are quite in another style. They are finished with a bold, masterly hand, touched as they are with the spirit of those vehement passions that call forth all our energies whenever we oppress and persecute."

While Prince Henry of Orleans is recovering from his wounds he has to bear the censure of his Parisian fellow countrymen who declare that the prince did not show the proper nerve. To this the prince may reply that to be on hand and receive the greater part of the punishment is nerve enough for all practical purposes. The Parisians cannot forgive Prince Henry, either, for being a poorer swordsman than the count of Turin. In the meantime, Prince Henry of Orleans is threatened with excommunication and another challenge from General Albertone. Prince Henry will conclude that the Italian officers are dangerous in Europe, whatever they may have been in Abyssinia.

The History of Assassination.

The fate of Canovas del Castillo has caused a revival of interest in the history of assassination, and some writers have declared that the record shows the nineteenth as remarkable among the centuries for the number of royal personages, prime ministers and eminent officials murdered or whose murder has been attempted. There is some question about this. "Uneasy lies the head that wears the crown" is a statement of fact much older than the present century. Talleyrand's concise description of the Russian government, "An absolute monarchy limited by assassination," referred, when uttered, to time past. The history of kings and emperors is one of open and secret murder. The chapter between Caesar and Henry IV of France presents on each page a more bloody record than has since been made.

The nineteenth century presents an enormous list of unsuccessful attempts to kill, revealing the entire or partially crazy character of the assassins, men who could not properly handle a weapon, or who were incapable of calculating the chances of success or of escape. All the attempts on the life of Queen Victoria have been made by mentally deficient persons. Probably a majority of our nineteen century assassins have been crazy men. The century has, however, been marked by many deliberate attempts to do murder by means of dynamite and other explosives, and it is a singular fact that in nearly all these cases the particular person aimed at has escaped, and only people upon whose lives no hostile design was entertained have been killed or injured. The only prominent exception to this rule has been Alexander II. of Russia.

The century began, it may be said, by an attempt to blow up the Emperor Napoleon with an infernal machine, in which he escaped, and his nephew Napoleon III. had a similar experience. Many other attempts were made to compass the death of both these rulers, and both were spared for a worse fate, ruin and exile. Of other French rulers, Louis Philippe had many a close call, but never received a wound. The assassin's knife, however, reached its victim in President Carnot. All the German rulers have been attacked. Francis Joseph of Austria was once slightly wounded. Isabella II of Spain was the object of many plots, daggers and bullets, but suffered no harm. Marshal Prim, of Spain, was killed in 1870. Alphonso XII, whose eulogy Canovas pronounced, was the object of two conspiracies, but died in his bed.

The form of government in any particular country seems to have made no difference with the political assassins. The British monarchy is certainly very different from the Russian, yet Spencer Perceval, the English premier, was killed in 1812, and nearly every member of the house of Hanover has been fired upon. Our own brief existence as a free government and country has been marked by the murder of two presidents, Lincoln and Garfield, and General Jackson was several times assailed with murderous intent. President or czar, the widest opposites, have within the present century fallen victims of the assassin.

Most of these murders have been perpetrated by men who could not have told what they wanted, many by actual maniacs. Where a political purpose was supposable it has not been attained. The effect, where any has happened, has been the opposite of what the assassin could have desired. Nothing has been taught except the uselessness as well as wickedness of assassination.

Sons of the American Revolution Will Banquet.

Distinguished Guests From Chicago and Elsewhere to be Present—Feast at the Fort Wayne Club.

Anthony Wayne chapter, Sons of the American Revolution is preparing for an elaborate banquet which it will give at the Fort Wayne club on Tuesday, October 19. The affair is to commemorate the anniversary of the surrender of Cornwallis, a patriotic motive such as prompts nearly all of the meetings given by the organization. Invitations have been sent to prominent men throughout the state, to members and those who are not. Several distinguished Chicago people will also be present, among them Judge Prendergast, who will respond to a toast. Dr. Bulson, who is chairman of the arrangement committee, is doing his utmost to make it a fine event.

OFFICERS CHOSEN.

Zollinger Battery Holds Its Annual Election of Leaders.

The members of the Zollinger battery met at the hall last night to hold their annual election. The election of the officers began early in the evening and it was after midnight when it was completed.

The result was as follows: Captain, W. F. Ranke; senior first lieutenant, W. Frank Alderman; junior first lieutenant, W. C. Cleary; second lieutenant, G. S. Jones.

During the evening fifty four members were mustered in, it being the largest number since the organization of the battery. W. A. Spice, of the True Kums, acted as mustering in officer.

It was decided that the battery should go to Rome City next Tuesday and remain in camp for a week.

Did you see Klondike yesterday? Not the land where golden nuggets are picked like cucumbers in August, but "Klondike" Alloway, the new twirler signed by President Meyer.

If you didn't see him, you missed a rare treat. He had all kinds of curves up his sleeve and speed to burn. At times the new twirler was wild, but this was caused by the high box, which he has not been used to pitching from. Not a hit was made in the first three innings and the two made in the fourth were scored after Babb had missed an opportunity to retire the side. Another of the hits was a stingy little grounder down to Kihm, who held it instead of throwing to Alloway, who had covered first base. Ashenback, the "wiseacre" coacher with the Springfields, attempted to rattle the new pitcher in the seventh and Alloway was rattled to the extent of striking out two batters. Thereafter the visiting coachers let Klondike alone.

Wayne was in the points for the visitors and he was hit hard, many of the hits off him, however, being made after three men should have been out. Cooke, Campbell, Sharp and Kihm were at their best as batters and kept the Governors chasing the ball to all parts of the lot. The fielding of the local team, too, was good, although the two errors made were quite costly, but the game was so easily won that there might have been a few more and still the Governors would have been losers.

The Daytons are here for a series and this afternoon the teams are fighting for the first game of the series at Lakeside park.

OTHER INTER-STATE GAMES.

Toledo, Ohio, Aug. 19.—Darby, who did so poorly for Toledo last Sunday, was in the box again yesterday and struck out nine men, besides keeping the hits well scattered. McDonough's home run and fielding were the features. The score:

Toledo	0	0	1	0	2	0	0	2	0	— 5
Dayton	0	0	0	0	1	0	0	0	0	— 1

Hits—Toledo, 9; Dayton, 9. Errors—Toledo, 1; Dayton, 3. Batteries—Darby and Arthur; Pratt and Greenwald. Umpire—Keefe.

New Castle, Pa., Aug. 19.—Mansfield won by superior batting, together with a costly error of New Castle. It was a beautiful game up to the eighth, when the visitors took a batting streak. The score:

Mansfield	0	0	0	1	0	1	0	3	0	— 5
New Castle	0	2	0	0	0	1	0	0	0	— 3

Base hits—New Castle, 9, Mansfield, 11. Errors—New Castle, 2; Mansfield, 1. Batteries—For New Castle, Miller and Graffius; for Mansfield, Ely and Lynch. Umpire—Lally.

Youngstown, Ohio, Aug. 19.—Wheeling won by the loose playing of Burry, who made four errors at short. Catcher Donohue joined the Wheeling team yesterday. The score:

Wheeling	1	5	0	0	0	0	0	2	[illegible]	— 8
Youngstown	2	1	0	2	0	2	0	0	0	— 7

Hits—Youngstown, 11, Wheeling, 10. Errors—Youngstown, 5. Batteries—For Youngstown, Jordan and Zinram; for Wheeling, Garvey and Messitt. Umpire—Colpan.

INTER-STATE LEAGUE.

Dayton at Fort Wayne.
Springfield at Toledo.
Youngstown at Wheeling.
New Castle at Mansfield.

RESULTS YESTERDAY.

National League—Boston, 8; Washington, 0. Baltimore, 5; Brooklyn, 2. New York, 8; Philadelphia, 3.

Western League—Kansas City, 10; Grand Rapids, 6. Indianapolis, 13; Minneapolis, 8. Columbus at St. Paul—wet grounds.

Western Association—Rockford, 12; Burlington, 6. Quincy, 2; Cedar Rapids, 6. Des Moines, 2; Dubuque, 8. Peoria, 8; St. Joseph, 5.

NOTES.

Stahl had three hits again yesterday in five times at bat.

The Monarchs defeated the Steelings yesterday with a score of 18 to 15.

"Jack" Dolan, a pitcher who was with Boston a long time, reported to Manager Whistler yesterday and will be added to the list of Springfield twirlers.

Ed Gaffney made a record Tuesday. He pitched for Huntington against the Blufftons and the Blufftons did not make a hit nor run. Only four men reached first base and not one got to second. Errors allowed these batters to reach the base.

Gear signed with Kansas City yesterday and last night left for his new home. He is a gentleman at all times and made many friends during his short stay here who will wish him all kinds of success.

Beam, of the Mansfield team, has a very peculiar delivery to say the least and it is a question whether or not it is legal. While in the act of delivering the ball he side steps that is calculated to deceive a runner.

MARKET NERVOUS.

Wheat Prices Still in Unsettled Condition.

Corn Offers Reached Eighty Nine Cents, but Prices in the Pit Were Below That Point.

Chicago, Aug 19.—Wheat opened very nervous and excited today, but with no such amount of trading as the frequency and violence of the fluctuations would indicate. September sold on the curb at 89c, but at the regular opening 86⅝c was bid, against yesterday's price of 90⅛c. The price broke almost immediately to 87⅝c, but there was apparently no wheat for sale, the market soon after jumping to 88⅝c, a new record price, on a comparatively small order. The crowd got into December, trading in that option almost equalling the business in the nearer futures. New York reported foreigners selling. The Price Current differed from other crop authorities, saying that spring wheat conditions were maintained. The paper places the spring wheat crop at from 125,000,000 to 150,000,000, with the preponderance of opinion in favor of the large figures.

No frost was reported from the northwest, but the abnormally cold weather still excited some apprehension.

Chicago, Aug 19.—Wheat—Aug., 87¼c; Sept., 87¼c; Dec., 87¼c, old, 88¼c, May, 89¼c.

Corn, Aug., 29¼ to 29⅛c; Sept., 29½ to 29⅝c, Dec., 30⅝c; May, 33c.

SCARCITY OF FRUIT.

Weekly Crop Bulletin Discourages Large Fruit Crops.

The crop bulletin for the week, issued by the government, has the following to say concerning the middle section of Indiana:

"Warm days and cool nights prevailed during the week. The warmest was ninety one degrees at North Lewisburg on the 9th, and the lowest was forty-six degrees on the 12th at Pataskala. Rain is needed in most counties, though some have had plenty. Corn needs more rain; it is now in roasting ear and promises a fair crop. Wheat threshing is nearly completed; good yields. Plowing progressed slowly on account of dry weather. Some pastures are drying up. The plum and pear crops will be light. The apple crop is poor in quantity and quality. Early potatoes are small and will not be an average crop; late planted promise an excellent yield, although the crop has been damaged by bugs and dry weather. Cabbage is being greatly injured by worms. Gardens are late. Celery is promising. There is a fair crop of seed clover being harvested. Oats are nearly all secured in stacks or barns, and are yielding fairly well in some localities. The tobacco crop is still promising. Some grapes are rotting and falling off, but generally the crop will be up to expectations. In general, the weather was unfavorable to growing crops."

RAILROAD BURDENS.

Not the Weight the Roads, but the Car Weights.

An ordinary passenger car on a steam railroad costs from $4,000 to $5,000 and weighs 38,000 pounds, or 19 tons. A mail car, which costs from $2,000 to $2,500 and is shorter by about one-quarter than the ordinary passenger coach, weighs 32,000 pounds, or 16 tons. A baggage car without the baggage in it weighs 28,000 pounds, or 14 tons and costs about as much as a mail car. A sleeping car is more expensive than any of the others, and it weighs a great deal more too. A plain, simple but durable sleeping car costs anywhere from $5,000 to $10,000, and an ornate, elaborate, luxurious sleeping car with observation attachments, literary annex and culinary department costs anywhere from $10,000 to $20,000. The average weight of a sleeping car is from 40,000 to 44,000 pounds, or from 20 to 22 tons.

A full train in motion, as a little figuring will show, is no light affair. The ordinary weight of the railroad locomotive for passenger service, exclusive of tender, but not of fuel in the tender, is 40 tons. One baggage car weighs 14 tons, and one mail car 16 tons, bringing up the weight of the locomotive and the baggage and mail cars to 70 tons. Six passenger cars at an average of 19 tons each weigh 114 tons, so that the total weight of a train made up of a locomotive and eight cars would be 184 tons, or 368,000 pounds, exclusive of the weight of baggage, of the fuel carried, passengers and mail matter.

Pulling 184 tons along rails at the rate of 50 miles an hour or more is an achievement which has not been easily brought about, and the more the problem is studied the more clearly it is understood how far the mechanical work on railroads has been pushed. There were, by the last figures reported, 36,000 locomotives in use on American railroads, 26,000 passenger cars and 8,000 mail and baggage cars. These figures seem large until compared with the number of freight cars on American railroads, and then they seem insignificant, for the number of freight cars in use is 1,250,000.

Freight cars, among railroad men, are divided into four classes—flat cars, such as are used for the transportation of stone, machinery and lumber; box cars, such as are used for the transportation of grain, fruit and ordinary merchandise; stock cars, such as are used for cattle, and coal cars, such as are used for the transportation of coal and oil—those used for oil being supplied with tanks. The average weight of a flat or gondola car is seven tons. The car costs from $300 to $400. Box cars weigh a ton more and cost $100 more each. Stock cars weigh eight tons each on the average. Coal cars weigh three tons each. It costs about $300 to build coal or oil cars, and they are designed to carry five tons apiece. The weight of 50 coal cars is 150 tons, and of their contents, if all filled, 250 tons, which, with locomotive and caboose added, make 470 tons as the weight of a train. It may be said roughly that the weight of loaded trains, passenger, coal or freight, ranges from 200 to 350 tons. The lighter the train the greater the speed. That's the railroad rule.—New York Sun.

Why He Was Courageous.

"I think," she said hesitatingly and with downcast eyes, "that you'd better speak to papa."

"Sure," he replied promptly. "That's dead easy. The only thing that troubled me was the interview with you."

"You're not afraid of papa?" she said inquiringly, opening her eyes in astonishment.

"Afraid!" he exclaimed. "Why should I be?"

"Really, I don't know," she answered, "but it's usual, you know."

"Oh, I suppose so!" he answered in the offhand way of the man of the world. "With inexperienced men there would be nothing surprising in it, but I have taken the precaution to loan him money, which is still unpaid."

Then it was that the beautiful girl realized that she had caught a genuine financier for a husband.—Chicago Post.

Russian Maid of Honor.

Directly a Russian maid of honor enters upon her duties she is considered a member of the court and has the right to attend all the official ceremonies. The costume on these occasions is most sumptuous—a rich white satin gown, buttoned from neck to hem with precious stones, and over this a tunic of purple gold embroidered velvet, with a long train and large hanging sleeves.

An Awful Revenge.

"How?" inquired the other.

THE INNOCENT CONVICTED.

Shot While Defending his Master and Hanged as a Murderer.

"Appearances are deceiving," said an old lawyer the other day. "The strongest case of circumstantial evidence I ever knew was against an innocent man. My father was a lawyer, and in the criminal practice. One of his clients was hanged for a murder which he never committed.

"Just at the edge of our town lived a rich old man in a grand old house. He had no family and was alone with his servants. One night there was a fearful disturbance in his house, and neighbors hurried in. Several pistol shots had been fired. The rich old man was dead, with a bullet in his brain and the butler lay with his hands full of jewelry and watches right in the doorway of the old man's room, with a bullet somewhere in his head, but he was not dead.

"His revolver lay by his side, and so far as could be seen the whole story was told right there. The butler, who had been in the house only about six months, had attempted to rob his master, had been caught in the act and shot, but had killed the old man in the fight. That was the only translation of it, and there was no other for several days, because the butler had a very serious wound and was delirious for a week. However, it was not fatal, and as soon as he was himself he made a statement to the effect that he had been awakened in the night by footsteps and had taken his pistol, which had only two loads in it out of five, and gone down into the hall below to see what the noise was.

"He noticed that his master's door was partly open, at the far end of the hall and hurried toward it. As he approached it he heard his master speak to some one, asking who was there, and with that there was a pistol shot, and he jumped into the room grabbing a burglar as he did so and at the same time getting a shot in the head from his master's pistol. Beyond that he remembered nothing more. His story was generally disbelieved, for there was no evidence of any person in the house with evil designs and all the plunder that he had not caught in his hands was lying on the floor about him, so that there was no apparent reason why a burglar should be there. All the doors were found locked by those who came in response to the alarm, and there were absolutely no signs of any burglarizing from the outside.

"Another strong point was that the bullet which was found in the butler's head exactly fitted the pistol of his master, showing conclusively that it was the master and not the burglar who shot him. This was the condition of the affair when my father took charge of it, and, though he really believed the butler's story and tried to prove it, he could not do it, and the man was finally hanged. A year later a burglar was shot by a policeman in the city nearest us, and he confessed on his deathbed that he was the murderer of our rich man. He had hidden in the house early in the evening, had collected all he could of jewelry and other portable valuables and was about getting out when he was caught both by the old man and the butler, and that the butler had got the bullet intended for him, as he had run into the room just as the old man fired. Dropping everything in his sudden surprise, he had rushed down stairs and hidden in the hallway, from where he had slipped out as soon as the front door was opened. In the excitement he was not observed, and he got away without any trouble at all, as the nearness to the city made strangers so common that their presence excited no suspicion. I'll never forget that incident, and I'll never be in favor of the death penalty on circumstantial evidence, I don't care how strong it is. Even lynch law is less unjust."—Chicago Post.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

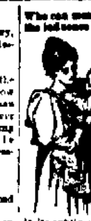

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

FRED FINK DEAD.

Ranks of the Pittsburg Machinists Again Broken.

Civil Engineers Hold a Meeting in This City—Wayne Knitting Mills Place a Big Order—Local Gossip.

Frederick H. Fink died this morning at 5 o'clock from typhoid fever, after an illness of two or three weeks. A widow and three children, the eldest five and the youngest less than a year old, survive the deceased. The funeral will take place Sunday afternoon at 1:30 o'clock from the house, 31 Durven street, and at 2 o'clock from Emanuel's Lutheran church, Rev. Philip Wambsganss officiating.

Fred Fink was born in this city in October, 1869, and was, therefore, twenty-eight years old. In 1887, when he was about nineteen years old, he entered the service of the Pennsylvania company as an apprentice in the mechanical department, served a full term and has since been employed as a journeyman machinist in the establishment. He was a skilled workman, a kind and companionable shopmate, and soon won and retained the friendship of the officials and his fellow workmen, who were greatly shocked this morning by the news of his death.

MEETING OF CIVIL ENGINEERS.

The civil engineers of the Pennsylvania lines west of Pittsburg held their quarterly meeting in this city yesterday afternoon. Those who participated were E. G. Erickson, of Fort Wayne; R. Taylor, of Columbus; W. C. Laer, Louisville; W. C. Cushing, Pittsburg; W. B. Blake, Louisville; R. K. Reeves, Richmond; L. J. Hawes, New Castle, Pa.; T. B. King, Youngstown; J. T. Roots, Wellsville, O.; A. H. Sanford, Pittsburg; A. M. Underhill and H. F. Mohr, Terre Haute, and T. H. Hamilton, Toledo. Mr. Taylor presided at the meeting.

A CLOSE SHAVE.

Westbound Pennsylvania train No. 9 barely missed killing an unknown man and woman on a crossing at Arcola last night. As it was the pilot of the engine struck and shattered the rear wheels of the vehicle, but did not throw it over nor injure the occupants in the least. Engineer Peter Riley found several shivered spokes sticking in the pilot when he stopped to see what damage had been done.

GREAT OPPORTUNITIES LOST.

In conversation with a Pittsburg paper concerning the Pennsylvania railroad's treatment of its competitors, an official of that corporation said that all its acts in that line were liberal and honorable. The corporation, had it adopted a less honorable policy towards competitors, would have today the only railway in several of the leading shipping points. Said the official:

"In the year 1875 the Pennsylvania company, by the purchase of five acres of ground in the west end, could have completely shut out the Pittsburg and Lake Erie at Pittsburg. The ground was useless to the owners and could have been bought for $200, and yet the big corporation neglected the opportunity to keep the Vanderbilts out of this territory. If the Panhandle had owned four acres along the river between Temperanceville and Esplen previous to the time the Lake Erie projectors secured their right of way, it would have been absolutely impossible to construct the Pittsburg and Lake Erie road, because the river men would have prevented the railroad company from driving piles out in the river which would have obstructed navigation. Since its completion the Pittsburg and Lake Erie has been hauling annually $7,000,000 worth of business in and out of Pittsburg territory. Had the Pennsylvania taken up several acres of land along the river above Ormsby they could have stopped the building of the Pittsburg, McKeesport and Youngstown railroad, and the Lake Erie would never have been able to obtain the bulk of the Monongahela river traffic. In 1878 the Pennsylvania could have purchased four or five acres of ground along Pine creek and by simply applying for a charter through that valley they could have killed the Pittsburg and Western project, and there would be no great Baltimore and Ohio Southwestern system today."

A PROMOTION.

It is believed that M. W. Mansfield, superintendent of the Indianapolis and Vincennes, will be appointed first assistant chief engineer of the Pennsylvania lines west of Pittsburg. Chief Engineer Johnson has been ill for some time and much work has been done by the assistants in his office. In addition to his duties as superintendent of the Indianapolis and Vincennes, Mr. Mansfield had performed a great amount of labor for the engineer's office. He has laid out the new yards at Chicago, made changes at Columbus, Pittsburg and other points. Mr. Mansfield was born at Ashland, Ohio, in 1850, and was graduated from Rensselaer Institute at Troy, N. Y. He began railroad work in 1871 as the civil engineer in charge of the construction of the east end of the Cleveland and Mahoning Valley at Zanesville, Ohio. He was afterwards chief engineer of the same road and was engineer of maintenance of way of the Richmond division of the Pennsylvania at Richmond.

AN IMMENSE DEAL.

Yesterday the Wayne Knitting Mills company placed an order with one of the leading eastern firms for 190 tons of yarn, to be delivered as needed during the coming six months. This is one of the largest orders for textile materials ever placed by any firm in this state and goes to prove that the Wayne knitting mills mean to do an extensive business this fall and winter. Another important deal made by this company was with Marshall, Field & Co., of Chicago, who agree to take the entire output of the factory for the next twelve months, placing no limit upon the amount. This deal with one of the largest wholesale and retail establishments in the United States is a testimonial of the excellence of the products of the mills and will have the effect in bringing their wares more prominently before the public and thus greatly increase the demand for them. The mills will at once be enlarged and the operating force increased to nearly double what it is at present.

MINOR MENTION.

Pittsburg Fireman W. K. Wilder is off duty on account of sickness.

Nickel Plate Fireman H. Minser is camping out on the Porter farm, three miles above Robison park.

Conductor R. A. Meyers, of the Nickel Plate, is detained at home by the serious illness of his wife.

Pittsburg engine 347 was turned out of the shops yesterday, thoroughly repaired and newly painted.

Rudolph Hilgeman, foreman of Wabash car repairers, is kept from his work by sickness in his family.

Ed Bratus, Captain Stoll's stenographer, is taking a week's vacation, which he will spend at Rome City.

M. Sullivan has resumed his duties in the Pittsburg car shops after a visit with relatives in Pennsylvania.

John Jones, J. C. Kickley and E. E. Sprott, of the Wabash machine shop, will attend the encampment at Buffalo.

The health of the Pittsburg shopmen is generally good at present, as evidenced by the very small absentee list.

Wabash engine 73 has been put into service again, after general repairs, and engine 348 has gone into the shops for repairs.

Master Mechanic C. H. Doebler, of the Wabash, has just completed a trip over the eastern division of the system, which consumed four days.

The earnings of the New York, Lake Erie and Western lines the first week in August were the largest for that week in the last five years.

The Nickel Plate in the last week has turned over to the Cincinnati, Hamilton and Dayton 200 empty cars to be sent west to be loaded with grain.

Agent R. J. Hamilton, of the Nickel Plate, is recovering from a slight illness, which kept him within doors much of the time during the past week.

The increased business on the Wabash has forced the company, in the last two weeks, to put on twenty additional switching crews and switch engines.

George Bradbury, vice president and general manager of the Lake Erie and Western and other Brice lines, now in Europe, will sail for home September 11.

W. Lucas and James O'Neil, of the Pittsburg Planing mills, will go to Huntington to spend Sunday, making the journey on bicycles on their wheels.

An accident on the West Shore road, the Nickel Plate's eastern connecting line, delayed west-bound train No. 5, which did not reach this city until 3:15 o'clock last night.

T. Henry Sweeney, clerk in the Pennsylvania offices, left yesterday for Washington, D. C. Thence he will go to New York and Atlantic City, returning home in ten days.

E. McGee, who had a piece of steel removed from his arm a week ago, resumed his place at the Bass blacksmith shop this morning. The metal had been in the flesh eleven years.

Ex President Winters, of the Northern Pacific, it is said, will probably to be elected president of the Wisconsin Central when the new company completes its organization.

The Nickel Plate will have five extra trains, loaded with G. A. R. people, through this city next Sunday. One of the trains will carry Commander-in-Chief Clarkson and his staff.

J. V. Gadigan, clerk at the electric works, has returned from Rome City. In the three days spent in fishing at that place he caught seventy six bass, some of which were very fine.

On Monday a judgment was rendered against the Columbus and Hocking Valley for $14,000,000 in favor of the Central Trust company, of New York, and [illegible] ... time prescribed by law the road will be sold at foreclosure sale.

The transportation departments look for an unprecedentedly heavy movement of live stock in October and November, and have already commenced putting cars in condition to handle it.

George Killon, the Pittsburg blacksmith who was taken seriously ill yesterday, is slightly better today, though still too sick to leave his room. His ailment resembles neuralgia of the stomach.

The marriage ceremonies of Henry Meinnewish and Miss Reyane, whose engagement was announced in these columns several days ago, will be solemnized this evening at the home of the bride's parents, Mr. and Mrs. John Reyane.

James Moore, who located and constructed the Central railroad of New Jersey and built several lines which are now part of the Pennsylvania railroad system, died at Lancaster, Pa., on Monday, aged eighty four years.

One hundred and ninety miles of new railroad will be built in Colorado this year on six lines, and the Denver Times predicts that nearly $4,000,000 will be spent in building these six projected lines, which in three cases are extensions of roads already in operation.

The Wabash's Toledo excursion train next Sunday will not leave this city until 7 o'clock, forty minutes later than usual. This change is made at the request of Huntington people, who are going to that city in great numbers next Sunday, and who do not wish to start upon the journey before 6 o'clock.

Yesterday the men employed in the Nickel Plate round house were honored by a visit from Engineer Bert Crosby. Mr. Crosby has been very sick and the trip to the round house was his first venture out doors in ten weeks. He is rapidly recovering now and will doubtless soon be restored to vigorous health.

The directors of the Louisville and Nashville have decided to build a fine new passenger station at New Orleans, the building to be a model in style of architecture, and constructed of iron, stone and wood, entirely covering the tracks on which the passenger trains will stand when discharging and taking on passengers. The train sheds will be 265 feet in length by 125 in width.

General Manager W. H. Canniff, General Superintendent P. S. Blodgett and Division Superintendent H. A. Worcester, of the Lake Shore and Michigan Southern road, were in the city today looking over the property of the company. This was probably Mr. Canniff's last visit here in his present official capacity, as it is generally believed that he is soon to be elected president of the Nickel Plate road.

Col. R. G. Thompson, of the Wabash, is today completing arrangements to send a big party to the encampment at Buffalo, leaving this city Sunday morning and going by way of Toledo and the steamboat route. Parties expecting to make this trip must bear in mind that in order to make connection with the boat at Toledo, they must take train No. 2, which leaves this city at 5:30 a. m.

Nearly $6,000,000 is being annually paid by the government to two roads for carrying the United States mails. These are the Lake Shore and Michigan Southern and the Pennsylvania system. The aggregate amount paid both roads foots up $5,620,059. Of this sum the Pennsylvania people earn $2,754,181, and the other line $2,865,878. The Lake Shore line hauls the bulk of the transcontinental mail.

Report says the Pennsylvania, as well as the New York Central, has under consideration the creation of the position of passenger traffic manager. In case such a position is created on the Pennsylvania lines east of Pittsburg, George W. Boyd will undoubtedly be promoted to be general passenger agent, he being very competent for that position, and with the appointment of George Daniels as passenger traffic manager of the New York Central, several days ago, Charles Scull, late with the Baltimore and Ohio, will be appointed general passenger agent of the New York Central.

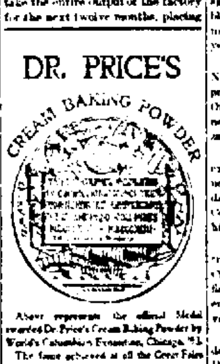

A justice of the peace at Alexandria, who is cramped for office room, selected a box car for the jury while deliberating over a case tried in his court. When the twelve had been given time to make up their verdict and it looked very much as though they were going to "hang," a switch engine steamed along the track just for jury car. After switching around some time it was hitched onto the car and began moving it away. The jurymen were soon brought to the realization that they were about to be landed in Louisville or Benton Harbor. There was a hasty bailing out and it was followed by a thundering at the door and cries of "Here's your verdict!"

Go to Chicago every Sunday via the Nickel Plate Road for $2.00 round trip. Train leaves Fort Wayne, 2:50 a. m.; arrive Chicago, 7:55 a. m.; returning leaves Chicago 3 p. m. or 10:15 p. m.

TRAINING FOR KLONDIKE.

A Man Versed in Hygiene Gives Prospective Miners Advice.

In the Klondike country the argonaut from this climate will have to be specially equipped physically to stand the rigors of an arctic winter and the hardships of possible hunger. A course of training may be necessary for the astute young man who has never been farther northwest than Chicago.

For those who contemplate making the trip to round up all the gold dust that lies concealed under the arctic circle a man versed in hygiene suggests the following rules of conduct:

Ride on the front seat of the grip car in winter.

Eschew overcoats and underclothing.

Spend two hours a day in the "zero" room of a cold storage warehouse.

Keep your head cool.

If you play cards at all, confine yourself to freeze out.

If married, ask your wife to let you build the fires on January mornings.

If single, send your sweetheart a cocktail and call the next evening. Your reception will be of a temperature low enough to insure you to most any climate.

Give your friends a cold stare when they greet you.

As you will have to pack your grub from Juneau to Dawson, you will need more muscle. Ask the janitor of your building to call on you when he wants coal carried up to the top flat.

Bathe in water in which ice is floating. It calms the nerves.

Rock the baby to sleep each night in the cradle. The exercise will accustom you to the work you expect to do in your mine.

Partake sparingly of the following menu once every day:

Ice.	
Cutlets of dog.	Sauce Bake muffins.
Moss tea.	
Tallow a la mode.	Lard frappe.
Snow water ice.	
Frosted pate cream.	Fricassee of icicle.
Chopped lichens.	
Spruce candle chilled.	Glacier puffs.

After a month of this diet two more months should be spent in fasting. If at the end of that time you still yearn for sudden wealth, you will be in condition to go, barring, of course, accidents and sickness.—Chicago Inter Ocean.

HAY FEVER.

It Can be Cured by Hirons' Double Treatment.

Read the Testimonials of Persons Permanently Cured of Hay Fever, Catarrh, Asthma and Kindred Complaints.

Hay Fever, or Hay Asthma as it is often called, is a combination of Bronchial and Nasal affections. The immediate cause and source of irritation being of external origin, attacking individuals during the months of May, June and August. The pollen of hay, dried grasses and rag weed comes in contact with the nasal and bronchial membranes, involving all the air passages, causing immediate irritation, frequently disabling persons afflicted therewith. The great discomfort and suffering, say nothing of the loss of life caused by this terrible disease, may be avoided by using Hirons' Double Treatment, which is a sure, safe and permanent cure. Commence using the medicine at once, and get your system in condition to resist the effect of these agencies upon the mucous membrane, thereby keeping the tissues in a healthy condition.

A Hay Fever Victim Made Happy.

The Hirons Medicine Co., Fort Wayne, Ind.

GENTLEMEN:—I have been afflicted with Hay Fever in its most malignant form for years. The first attack would appear in June. During August and September my sufferings were intense. Water would run from my eyes and nose, the paroxysms of sneezing were uncontrollable, and I had terrible burning pains in my head. I learned of your Double Treatment for Catarrh and Hay Fever and procured it at once. After having used three bottles of the remedies I was entirely cured. I heartily endorse your valuable medicine, and advise all Hay Fever sufferers to give it a trial. (Signed.)

CATARRH.

What the Resident Manager of the Chicago Newspaper Union has to Say.

The Hirons Medicine Company, Fort Wayne, Ind.

GENTLEMEN:—Your Mr. A. R. Hirons persuaded me to give your Double Treatment for catarrh a trial, and after having used it about 30 days, I can honestly say that the results have been very satisfactory. I have been a sufferer from the disease since childhood, and was so bad at times that the membrane would bleed constantly. By the use of your medicine I have stopped the bleeding, my head is greatly relieved and I have no more difficulty with my breathing. Yours truly,

CHARLES D. TILLO.

A Word From Charles Yagerlehner, the Electrician.

DEAR SIRS:—I have had a bad case of catarrh for 14 years. There was a constant dripping of mucous into my throat. Every morning my nose, head and throat would be filled up. After a terrible siege of trying to remove the mucous I would become so sick that it was with difficulty that I could eat my breakfast. I had no appetite. The disease developed into bronchitis and dyspepsia. I read of your Double Treatment for Catarrh, and after having used your remedies for a short time, I can cheerfully say that now my appetite is good, I have no more trouble with indigestion, my throat is well, and my general health has not been so good for years.

Signed, CHARLES YAGERLEHNER.

ASTHMA.

Testimonial From Ex-Judge of the Superior Court of Allen County.

Hirons Medicine Co.: [illegible]

Having been a great sufferer from that most distressing disease, Asthma, and having used your Asthma remedy for the last few months, I can certify very cheerfully, that it has afforded me great relief and I feel confident that in the majority of cases, will accomplish a permanent cure.

Respectfully yours, A. A. CHAPIN.

Hemorrhage of the Lungs Cured.

Mrs. Anna Schoeph, who resides at 103 W. Superior St., says: "I take great pleasure in signing the following statement: All my life I have been afflicted with a bronchial cough. A year ago I had a hemorrhage of the lungs. Since that time, for months I have been troubled with hemorrhages. I was advised by a friend to try your New Asthma and Cough Cure. I have taken four bottles of the remedy. I have no more soreness in my lungs and the hemorrhages have ceased. I cannot say enough in the praise of your medicine.

(Signed.) ANNA SCHOEPH.

Had Asthma for Twenty Years.

The Hirons Medicine Co. [illegible]

Dear Sirs:—I have had Asthma for twenty years. I treated with physicians in St. Louis and in other cities, and have used many remedies, but none relieved me until I commenced the use of your New Asthma and Cough Cure. Before I had used one bottle I received great relief, and after having used four bottles I am entirely cured. I am happy to recommend your Cure to everyone suffering from Asthma. May the Lord bless you and your wonderful medicine.

Signed, MARY BUFFORD, Mulvane, Kansas.

At the Grand Canyon of the Yellowstone.

"Where the road turns to the left at Grand View, walk out over the salient of rock at the angle itself, out down on the farthest chimney shaft, over rocks naturally white, but now blackened by weathering. If possible, go there in the morning or in the latter part of the afternoon. At noontime the light is too strong, and the details of the canyon are smothered, and the individuality of the walls killed. But with a soft morning or afternoon light every detail of one or the other of the walls leaps out from the general mass as if restless with life. And what a wonderful sea it is that lies beneath and beyond us. A painted sea not of water but of rock. And such painting! Try to distinguish the divided colors and their infinite variations. The most wonderful part of it is the rare blending, where one fades into another, and yet thou canst detect neither the beginning nor the ending."

Around Yellowstone Park.

"A climb up Electric Peak; a ride over Mount Everts; a trip to Yancey's; paddling about Yellowstone Lake; camping out down at Two Ocean Pass; a ride into the Hoodoo country; an excursion down the Madison to Riverside—all these can be made from some one of the hotels as a rendezvous, and take my word for it you will be surprised at the results.

"Make up a party of congenial spirits for vacation time in 1897 and go out to Yellowstone Park and see how much of its 3,344 square miles can be seen before you return. Around the leaded summer season at hotels where the temperature and altitude will allow genuine comfort and recreation."

The above is from a description of Yellowstone Park in "Wonderland '97." This book will be sent to any address by Chas. S. Fee, General Pass. Agent, Northern Pacific Railway, St. Paul, Minn., upon receipt of six cents.

FAIR PLAY

To the Workingmen of Fort Wayne.

Early closing to be fair must be universal among the merchants.

We have been closing at 6 o'clock in response to the wishes of the Clerks' union, but some of our competitors down the street are open.

Is this early closing movement to build up a few merchants at the expense of many?

We carry a vast and varied line of goods and serve a multitude of people.

Why should we be asked to deny our customers the privilege they enjoy elsewhere.

We might add a stock of perishable goods and hold our doors open on the pretext that the longer the day the less liable they are to spoil, or we might operate our own business without the assistance of clerks and satisfy some advocates of early closing, but we prefer to be candid and pay out our money to an army of clerks, who have enough American sense of fair play to tell us to open our doors to the people during the hours that other merchants do.

We operate many stores in other cities—larger stores in larger cities—and Mr. Groves always cooperates with the unions in closing movements—but this is the only city where unions have different laws for different lines of business.

We appeal to the merchants, we appeal to the unions, we appeal to the people if our position is not correct that early closing to be just should be uniform and universal.

Mr. Groves will keep the doors of the Chicago Bankrupt Clothing, Shoe and Hat store open as long as his competitors do, or he will close them as soon as his competitors do.

Let us hear from the merchants, let us hear from the Clerks' union, let us have an expression from the people, to the end that early closing be uniform and universal.

Equal rights for us, equal privileges for the people, and lowest prices in the city are the mottoes we emphasize and prove in every transaction.

THE CLERKS

[illegible]

It is seldom that a business man will, when he feels he has committed a serious blunder, stoop to a deliberate misstatement in order to place himself right. In an article published in several papers by the Chicago Bankrupt store appears this statement: "We are now closing at 6 o'clock in response to the wishes of the Clerks' union." We should have paid no attention to this statement had it not been accompanied by the request to "hear from the Clerks' union" and then speaks of the injustice that has been done them by compelling them to close their doors while their competitors remain open. This entire statement from beginning to end is a deliberate perversion of the truth. They are not closing at 6 p. m. at the request of the Clerks' union, for the reason, that while they have been here nearly a year, it is only within the last two weeks that they have been closed at 6 p. m. We regarded this as a bluff. We had no confidence in their pretensions. Last night they opened up again, proving conclusively that their bluff didn't work. The Retail Clerks union is composed of clothing and furnishing goods clerks, and every clothing and furnishing goods store in the city closes at 6 p. m. We have repeatedly requested this firm to close these departments, and if they had done so no injustice would be done. This is done in many cities where stores have several departments, but they always refused to close.

Of course, we could not under any circumstances, recognize them as a fair store. Their entire business methods are, we believe, unfair, so that it would be impossible for us to place them on the same standing with more reputable merchants; and while they boast of the host of clerks employed, not one of them is a member of the clerks' union. In conclusion I will say that we care not whether they are closed or open. We will treat them as we have in the past, and fight them whenever and wherever an opportunity affords. We will pay no further attention to any communication from them.

President Retail Clerks' Union,
No. 10.
